€

**9.950 euros**

- ✓ 30% of the treatment must be paid per bank transfer, once the donor is allocated. The clinic will require a receipt of the transfer
- ✓ If there is not transfer because after carrying out the PGS, the embryos are not suitable to be transferred; the cycle will be completely paid. The amount of 800 Euros will be refunded to the patient/s, as the treatment is completed.
- ✓ If the treatment is cancelled, for any reason, this 30% won't be refunded once the donor is allocated

- ✓ 70% of the treatment must be paid before the day of the transfer by bank transfer. The receipt of the payment must be shown before the transfer is carried out.
- ✓ The cost of patient medication has **NOT** been included.
